## ***Blight Resistant Chestnut Trees— From China***

---

Make a lasting gift—why not buy a pair for your friends or to give your Children the delight of picking up Chestnuts?

These new Blight Resistant grafted Chinese Chestnut trees replace the native species which the blight has killed.

They are beautiful trees, rapid growers, and bear as soon (or sooner) than apple trees. AND the U. S. Dept. of Agriculture nut specialist says the nuts are absolutely as good as the native American Chestnuts used to be.

(Two trees are needed to pollenate one another.)

<b>ORDER</b>	4-5 ft., \$1.75 ea.	<b>F. O. B.</b>
<b>YOUR TREES</b>	5-6 ft., \$2.00 ea.	<b>Railway Station</b>
<b>NOW</b>	6-7 ft., \$2.25 ea.	<b>Purcellville, Va.</b>

(To get a tree that has already ripened nuts, add \$1. per tree.)

They will probably bear this year if shipped with ball of earth, add \$1. per tree for cost of preparing ball of earth.)

Try a pair of thin-shelled **STABLER BLACK WALNUTS**: dignified lawn trees. Unusual nuts. 6-8 ft., \$3.00; with ball of earth, \$4.50 per tree. This tree often bears two kinds of nuts.

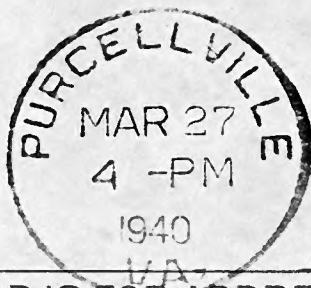

Two grafted American persimmon trees (delicious fruit), \$3.50.

Satisfaction guaranteed or money refunded.
